Tribal Registration

Waikato Tainui provides numerous programmes and opportunities for our tamariki and rangatahi, including Young Engineers, Young Animators, Coding, Reo Aratau, Taster Courses, House of Science including programmes for whaanau. We have been fortunate to be able to get these at a subsidised rate.

In support of Waikato Tainui and our marae, who benefit from the number of tribal registrations, we are asking that all eligible whaanau check registrations and complete if not already done. The Education and Pathways team are also collating a database of numbers of participants in the various programmes so they can gauge coverage across marae. **At no time are any details, names etc of participants shared. Just the number of participants.**

To make this easier, it would be awesome if you fill out the [online form](#) with details. *While this is not compulsory, it would be awesome if this is done.*
